

## Call for Application 1 Research Fellowship

The Centre for Social Studies (CES) – Associate Laboratory - University of Coimbra (Portugal), opens a call for applications for 1 research fellowship (Doctoral degree – Bolsa de Investigação) in the project '**Enabling Multichannel Participation Through ICT Adaptations – EMPATIA**' (Grant Agreement no.: 687920 – EMPATIA – H2020-ICT-2015/H2020-ICT-2015), funded by the Horizon2020 Program of the European Commission and coordinated by Dr. Giovanni Allegretti ([http://www.ces.uc.pt/investigadores/cv/giovanni\\_allegretti.php](http://www.ces.uc.pt/investigadores/cv/giovanni_allegretti.php)).

CES provides a stimulating intellectual environment in the domain of social sciences and humanities. The Exchange project will be hosted at the DECIDE – Research Group on Democracy, Citizenship and Law, which has focused its activity on questions such as the organisation of the political community and its multiple relations with the State and experiences of democratic participation and decentralization, among others.

The project will be also associated with the Observatory on Participation, Innovation and Local Government (PEOPLES'), which is a meeting and exchange place on topics related to the participation of citizens in the construction of policies and projects for the territory. It is place to provide reflections on innovations that transform the structure, powers and organizational and political culture of the levels of government closest to the citizen.

### a. Project Description:

The EMPATIA project seeks to radically enhance the inclusiveness and impact of Participatory budgeting (PB) processes, increasing the participation of citizens by designing, evaluating and making publicly available an advanced ICT platform for participatory budgeting, which could be adaptable to different social and institutional contexts. EMPATIA is a 24-month project that seeks to design, evaluate, refine and widely disseminate such a platform as an open-source public good.

EMPATIA aims at producing the first ICT platform capable of fully encompassing both the decision-making cycle and the implementation cycle of PB whose integration is considered indispensable by literature as the main driver of the self-sustainability process.

# EDITAL

Three Pilots with citizens of three diverse PB communities - the municipalities of Lisbon (Portugal), Ričany (Czech Republic) and Wuppertahl (Germany) - will implement, analyse and validate the EMPATIA platform.
