UNIVERSIDAD DE GRANADA

## ASETEL International Summer School

Intermediality & Transmediality.  
Crossing Thresholds for 21st  
Century Literary Theory

11th - 18th September 2019

The thematic area selected for this first edition of the School responds to the need to tackle, from different methodologies, a relevant space among the most recent trends in Literary Theory and Comparative Literature, while being transversal enough to appeal students coming from different disciplinary profiles.

The School offers two seminars taught by guest chair professors Jan Baetens (KU Leuven), Espen Aarseth (IT Copenhagen) and two workshops taught by Rui Torres (UFP, Porto) and Meri Torras (UAB).
