EAI ArtsIT 2022

11th EAI International Conference: ArtsIT, Interactivity & Game Creation

November 21 - 22, 2022 | Faro, Portugal

About EAI ArtsIT

ArtsIT takes place from November 21st to 22nd, as a hybrid event at the University of Algarve, Faro, Algarve, Portugal, and in Cyberspace. In this edition the CIAC – Centro de Investigação em Artes e Comunicação, will host the event. The CIAC is a research unit assessed by the Foundation for Science and Technology. Since its foundation, the CIAC has promoted and actively collaborated in several partnerships in the artistic and cultural activities of the Algarve, where it is based, through specific collaboration agreements with Municipal Councils, Cultural Associations and with the Algarve Regional Directorate for Culture. It is currently an important stakeholder in the region. The research produced at the CIAC is often disseminated by the surrounding community through the multiple extension activities promoted, as well as discussed in international networks.

The ArtsIT conference is considered a perfect partner to CIAC, as it offers a bringing together an even wider array of cross-/inter-/trans-disciplinary researchers, practitioners, artists, and academia to present and discuss the symbiosis between art (in its widest definition) and information technology applied in a variety of distinct fields. Since 2009 ArtsIT has become acknowledged as a leading scientific forum for the dissemination of cutting-edge research results in the intersection between art, science, culture, performing arts, media, and technology.
